

Please take whatever steps are possible to prevent Sinclair Broadcasting from forcing their stations to air an anti-Kerry documentary days before the election.

Sinclair uses the public airwaves free of charge, and it is obligated by law to serve the public interest. It is defaulting on that obligation by employing a tactic that benefits itself (by supporting an administration that favors its interests) and harms the public (by offering it a profoundly unbalanced view of one of the candidates for the highest office in the land).
